

# CHEMICAL ANNIHILATION

Chemical Annihilation is a thrash metal band with a hint of death and speed metal mixed in. First formed in North Portland in the late 1980's they developed a growing fan base with a series of live concerts and 2 recorded releases. This includes the very well received "Why Die?" demo. A unique band with a lead vocalist also playing the drums, 2 guitars and a bass. They disbanded in the very early 1990s..

The band released a "final" compilation of both audio releases along with a DVD of a live concert in 2009 on Stormspell records.

In 2017 founding drummer and lead vocalist Mike Pfau along with Arachnid guitarist and vocalist Paul Nicholls wanted to revive Chemical Annihilation. They recruited veteran musicians Tobe Anderson and Bill Brewer for guitar and bass. The band had a series of live performances in 2017 thru 2019.

When the corona virus shut everything down the band focused its energy on a new recording. This resulted in the latest release Resurrection. It features updated versions of the classic songs from "Why Die" along with 3 brand new songs. Bill Brewer stepped down from live performances with the band and this caused founding guitarist Jeff Vance to pick up the bass and get back into music.

The current band members are:

Mike Pfau -  
Drummer/Lead Vocals

Paul Nicholls -  
Guitar/Vocals

Tobe Anderson -  
Guitars/Vocals

Jeff Vance - Bass
